

REMARKS

This is in response to the Office Action dated September 22, 2004 in which the Examiner requested that Applicant elect a single disclosed species for prosecution on the merits.

I. RESTRICTION REQUIREMENT

The Examiner identified the following patentably distinct species:

Species I (Figures 1 & 3); and

Species II (Figure 2).

Applicant elects to prosecute Species II (Figure 2). At least claims 1, 4-14 and 17-28 are readable on the elected species.

As to new claims 29-35, at least claims 29-30 and 33-35 are readable on the elected species. Several of the new claims are generic to both species, including independent claim 29.

The elected claims are also readable on the disclosure, including the description associated with Figure 2 and other disclosure not associated with Figure 2.

II. AMENDMENT TO CLAIM 13

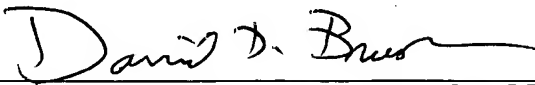

With this response, claim 13 is amended to remove certain limitations and to change the term "voltage reducer" to --power supply--. Support for the "power supply" term can be found on page 7, lines 4-11 and page 18, lines 14-28, for example.

III. NEW CLAIMS 29-35

Applicant respectfully requests consideration of new claims 29-35.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to Deposit Account No. 23-1123.

Respectfully submitted,
WESTMAN, CHAMPLIN & KELLY, P.A.
